Date: 10/08/2019-10/09/2019

Cost: \$730.00

Advanced Estimating 2019

ADVANCED TRAINING FOR THE ESTIMATING PROFESSIONAL

The advancement of technology in today's vehicles is changing faster than ever. Exotic materials and methods have become common on practically every make and model vehicle. The proliferation of construction methods and materials is going to continue. Detailed technical repair information from manufacturers on structural, cosmetic repairs, restraint systems, advanced driver assist systems, materials, glass operations and even, interior trim retainers, now exists. Every estimate written needs to be thoroughly researched and carefully documented to ensure the estimate is technically correct following all O.E. repair specifications. PPG MVP Advanced Estimating 2019 was designed to assist today's estimator in consistently identifying and documenting a technically correct estimate.

Production Courses

Exceptional performance to produce consistent and predictable results

Collision repair shops face ever increasing demands from work providers and vehicle owners to improve Quality, Speed and Cost.

The production management oriented courses offer real world insight into how you can meet, and even exceed expectations, given today's market challenges.

WHO SHOULD ATTEND

Shop Owners, Office Managers, Estimators, and Key Personnel

COURSE OBJECTIVE

Provide the skills and knowledge to write technically accurate estimates for safe and complete repairs.
